## Objective

Petroleum engineering major looking for a full-time position that offers several responsibilities, challenges, and an exciting environment.

## Education

University of Oklahoma May 2009 (Expected)

- BS Petroleum Engineering
- GPA: 3.72/4.00

## Experiences

Chesapeake Energy Summer 2008  
Reservoir Engineering Intern

- Calculated volumetrics for over 175 wells and sections
- Analyzed wells logs, volumetrics, and decline curves which resulted in the addition of new proved undeveloped reserves and well locations
- Completed over 30 Initial Reserve Estimate Forms
- Worked with computer programs such as ARIES decline curve analysis and economics and Power Tools

ConocoPhillips Summer 2007  
Production Engineering Field Intern

- Learned and witnessed daily field operations while riding with lease operators
- Gathered and analyzed data in order to diagnose and find solutions to failed and low producing wells
- Contributed to a team environment and interacted with people from many different disciplines in order to solve problems
- Attended several classes, presentations, and field trips to learn about equipment, tools, drilling and workover operations, and new technologies
- Worked with computer programs such as PEEP economic software, DSM project manager, and Wellview diagrams

## Honors & Activities

Dean's Honor Roll	
President's Honor Roll	
Chapter of the Year Chair, SPE	2008-Present
Society of Petroleum Engineers	2005-Present
Alpha Lambda Delta Honor Society	2005
Moore High School Valedictorian	2005
Race for the Cure, Oklahoma City, OK	2000-Present
